

# Bravo AX Ringing and Special Functions

## Ringling Functions

**Swinging** bells are available in two pitches. The lower bell (F3) is typically swung as a Call to Worship and the smaller bell (A3) can be used to call to classes or Sunday School. You can swing either bell for 30 seconds or 1, 2, 5 or 10 minutes.

A **Peal** consists of three or four bells swinging together in a chord. Peals are used during celebrations such as Easter, Christmas Eve and Weddings. Four traditional peals are included; you may swing any one for 1, 2 5 or 10 minutes.

American 3: F3 - A3 - C4

Diatonic 3: F3 - G3 - A3

American 4: F3 - A3 - C4 - F4

Minor 3: F3 - A ♭3 - C4

Swinging bells will decay naturally after swinging for the designated time.

**Tolls** are solemn rings of a single low bell. They are used for funerals and other solemn occasions. The Slow tempo rings once every 12 seconds, Medium rings once every 9 seconds and Fast rings once every 5 seconds. The automatic schedule can be programmed to let the bell toll continuously for 1, 5 or 10 minutes. The pitch of the tolling bell is F3. In addition to scheduling timed tolls, you can edit the Custom Toll Quick Function on your home page.

The **Angelus** bells call the community to prayer traditionally at morning, noon and evening times. Three different tempos (5 seconds, 4.5 seconds and 4 seconds) are available to allow the appropriate amount of time between rings for each prayer. You can choose to end the prayer with 9 tolls or with a one-minute swinging bell.

The Angelus and Time Strikes always take precedence over other scheduled music. If the Angelus and Time Strike are both scheduled on the same hour, only the Angelus will play. This setting can be changed in the Angelus configuration on ChimeCenter.

## Other Available Functions

De Profundis Toll

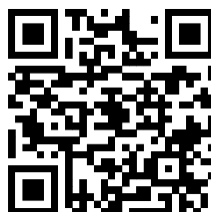

Orthodox "Call to Church"

Taps on Bugle

Amazing Grace on Bagpipes

## Add-On Music Volumes – Library Upgrades

With an internet connection, your Bravo AX library can be expanded. Scan the QR code below to view additional music volumes that can be purchased to upgrade your library. Copyrighted music can only be used in the US. Contact our office for more information or to receive a quote.

Premium Chime.Center subscribers will find Custom Ringing on Chime.Center's Music menu.  
Use this screen to customize existing factory supplied ringing or create your own.
