Mr. Jeffery A. Crook
National Sales Manager
Chime Master Systems
P. O. Box 936
Lancaster, OH 43139

Dear Mr. Crook:

The Chime Master system installed at the Calvert United Methodist Church has certainly been a blessing to our community. Some of the comments are as follows.

"It is wonderful to hear the chimes. I don't always hear them all three times a day, but when I do hear them, they inspire me to think and reflect on God and His wonderful world."

"I enjoy the chimes very much. It is great to hear the seasonal music they play at Easter, Christmas, Fourth of July, Thanksgiving and on other occasions."

"I would like to record the chimes so that my mother could hear them. I really enjoy them."

"I remember that we had chimes many years ago, but these seem clearer and more beautiful."

Our community is small, but we have heard comments from people driving thru the area that they heard the chimes. I'm sure that they will remember passing by the church and hearing the beautiful music.

We were blessed to have some one make a donation to the church to purchase the chimes in memory of his parents. You expect to hear chimes in larger churches but not too much from a small country church like ours.

Sincerely,

Cookie Kellam, Treasurer
