Jeff Crook
CHIME MASTER SYSTEMS
Post Office Box 936
Lancaster, Ohio 43130

Dear Jeff,

Thanks for a delightful conversation and reminiscence today! It has been ten years since you and your wife climbed up into the tower of the United Methodist Church in Ulysses, Kansas and installed a Chime Master System. That system is operative today and immensely enjoyed in the Ulysses community.

In 1996, we secured from you a Chime Master System for my present congregation, the First United Methodist Church of Hutchinson, Kansas. This is a downtown church. We are across the street from the Post Office. I think that almost every week someone in the community — other than members of our congregation — comment favorably about the chimes. We especially hear from people who frequent the Post Office at the beginning and the end of business days.

The sound is excellent, the technology extraordinarily dependable, and your support and service have been outstanding. Our system here has operated trouble-free from the moment it was installed. The system at Ulysses had a problem related to a lightning hit, and your help with that could not have been better.

If you want to use me as a reference, please feel free to do so. We also look forward to adding to our system the two new disks that are soon to be released.

Thanks be to God for you and all the good you do!

Love and Grace,

D. Allen Polen, Jr.
Pastor
