CHIME MASTER SYSTEMS
P.O.Box 936
Lancaster, OH 43130
Attention: Jeff Crook

Dear Jeff,

I am writing to tell you how delighted I personally am with the performance of the Chime Master Systems carillon system that was installed at Silver Creek Methodist Church shortly after the first of this year.

We searched diligently for the system that we thought would fill our needs. We talked to several other companies, and then received a CD from your company and from a competing company. We thought the competing company's CD, which we received first sounded pretty good. Then we received your CD, and all who listened to it spoke of its excellent tone and quality.

This is a small town, and the wind being in the right direction, all residents can hear our music, if not all the time, when the wind is right. Even the parishioners of the only other church in our town have commented on how much they enjoy the music. You gave us an excellent choice of hymns that we can choose from, and there are so many songs in its repertoire.

I have called several times to change some of the programs, and to ask questions that have come up, and have been very pleased with your service. We would be happy to show it off to any representative of a church wishing to come to Silver Creek for a demonstration of its capabilities.

Ned Powers

Sincerely,
Ned Powers, President of the Administrative Board
Silver Creek United Methodist Church
