Lancaster, OH 43130

Almost two years ago St. Mark's Lutheran Church replaced its carillon. It had served us for many years, but the time came when we decided to replace the unit. We received a very fair offer and felt we should make the change. Making the transition was very simple and trouble free. Your company installed the program we desired so all we had to do was replace old with the new. It has operated since then with absolutely no problems.

Your company has followed up with questions if all was well. This is my response to assure you that we are quite pleased with your product.

Sincerely,

Dale Barringer
Congregation President
