Dear Mr. Crook,

On behalf of the members of Faith Lutheran Church, I would like to express my appreciation for the high-quality and excellence of the Chime Master Systems carillon. Not only has it added immensely to our worship and presence in the community, but we continue to receive very positive comments from people throughout the area on how much they appreciate the system.

We find the system easy to use and are more than pleased with it.

Feel free to use our congregation as a reference to anyone considering purchasing your product.

Sincerely yours,

William J. Thurber, pastor
