Church Phone: 330-424-5212
Pastor Cell: 234-567-1978

June 14, 2019

For decades the carillon of the First United Methodist Church of Lisbon had chimed the hours of noon and six each day and welcomed worshipers on Sundays. At Christmastime the villagers enjoyed the carols as they shopped. Originally funded through the coins contributed by children, the system served the community and the church. But constant use and changes in technology eventually silenced the music.

Last year the Board of Trustees began investigating options for a replacement system. Initial cost estimates were prohibitively expensive, but then Chime Master Systems was proposed. The Chime Master Six-SS Digital Carillon and amplifier fit the budget, compactly suited cabinet space, offered flexible programming, and allowed our church to share music with the community. Installation was efficiently completed. Operation of the system has been smooth and uncomplicated. We have been very pleased with our new Chime Master system. Thank you for an excellent product and outstanding service.

The chimes call us to worship on Sunday, again.

Sincerely,

A handwritten signature in black ink that reads "Don Mason".
