In Re: Chime Master Carillon

Dear Jeff:

We have been extremely well satisfied with the performance of the carillon system installed in our County Courthouse by Chime Master. The installation was timely and professional and your customer service has been exceptionally helpful in answering the few operational questions that have arisen. We have received numerous positive comments and the feeling of the community seems to be largely unanimous in their appreciation of the bells. No one has even suspected that the bells are simulated and we aren't telling!

Thanks again,

Kevin Clay Cockrell
