RE: New Chime Master

Dear Jeff,

I wanted to tell you that I am extremely pleased with the new Chime Master System that was recently installed in All Saints Cemetery in Wilmington. The installation of the new carillon and a new cupola with pre-installed outdoor speakers was arranged and coordinated perfectly. Now that the exterior speakers are operational, the carillon provides a spiritual ambience to the cemetery grounds throughout the day.

When the carillon is not being used to toll the arrival of a funeral or play sacred music for a chapel service, it is set to play the Westminster chimes on the hour and it tolls the hour and half hour throughout the day. At noon each day it plays ½ hour of sacred music.

The system is well designed, attractive and easy to use. It has built in versatility to meet a variety of needs. The quality of the digital sound is superb and of the highest quality. I would recommend this product to any cemetery that wants to enhance its image. Something about the sweet sound of bells makes everyone feel closer to heaven.

Sincerely,

Mark A. Christian
Executive Director
