Mr. Jeffrey A. Crook
Chime Master
PO Box 936
Lancaster, Ohio 43130

Dear Mr. Crook,

My mother was organist for many years at our small Presbyterian Church in Yanceyville, N.C. Music was a passion in her life! Years ago, she donated chimes to our church. Over the years these early chimes, which were played from record discs, became outdated and eventually were unusable.

Now to the present, in May of 2014, we installed the new Chime Master system at our church. As they say, the rest is history. The quality, ease of use, and the myriad of hymns and other tunes available is impressive. Using the Almanac feature/function, you just do some initial set-up, then turn the system on and simply forget about it unless you desire to add selections for special occasions. We incorporated the chimes into The Veteran's Day activities playing all of the military hymns as people gathered at the Historic Courthouse. This is only one of many features that The Chime Master System offers to the user.

The response to the chimes has been 100% positive in our community. We play three hymns at noon and 5PM each day, from 10:45AM until 11:00AM on Sunday morning as we gather to worship, and 3 hymns at noon on Sundays immediately following our Sunday morning service. There is a lady that comes to our parking area at noon to listen to the chimes while eating her lunch. There are numerous times people will comment to us or others in town what a blessing these chimes bring to them.

Your Chime Master System has provided our Church with the ability to minister to individuals in our community on a daily basis and to do so in such a meaningful manner. Finally, your representative, Byron Hames, is the perfect person to represent your company. He is committed to his work, and I believe that he feels that your product is a special ministry to those people that hear the chimes.

Gratefully yours

David B. Wilson
Yanceyville Presbyterian Church
