

# Millennium and Platinum AX Ringing and Special Functions

## Ringling Functions

**Swinging** bells are available in four pitches. The lowest bell (C3) is typically swung as a Call to Worship. A smaller bell can be used to call to classes or Sunday School. You can swing any bell for 30 or 45 seconds, or 1, 2, 3, 4, 5 or 10 minutes.

A **Peal** consists of three or more bells swinging together in a chord. Peals are used during celebrations such as Easter, Christmas Eve and Weddings. Ten different peals are included; you may swing any one for 30 or 45 seconds, or 1, 2, 3, 4, 5 or 10 minutes.

Swinging bells will decay naturally after swinging for the designated time.

**Tolls** are solemn rings of a single low bell. They are used for funerals and other solemn occasions. The Slow tempo rings once every 12 seconds, Medium rings once every 9 seconds and Fast rings once every 5 seconds. The automatic schedule can be programmed to toll one of the low bells continuously for 15, 30 or 45 seconds, or 1, 2, 3, 4, 5 or 10 minutes. In addition to scheduling timed tolls, you can edit the Custom Toll Quick Function on your home page.

The **Angelus** bells call the community to prayer traditionally at morning, noon and evening times. Three different tempos (5 seconds, 4.5 seconds and 4 seconds) are available to allow the appropriate amount of time between rings for each prayer. You can choose to end the prayer with 9 tolls or with a one-minute swinging bell.

The Angelus and Time Strikes always take precedence over other scheduled music. If the Angelus and Time Strike are both scheduled on the same hour, only the Angelus will play. This setting can be changed in the Angelus configuration on ChimeCenter.

If you wish to use the real bells at your facility, check the option to use tower bells when scheduling the Time Strike and Custom Toll. When configuring the Angelus or adding swinging, pealing, or tolling bells to the schedule, choose a title containing the word "Tower."

## Other Available Functions

De Profundis Toll
