

## St. Justin Martyr Catholic Church

Mr. Jeff Crook  
Chime Master Systems  
P.O. Box 936  
Lancaster, OH 43130

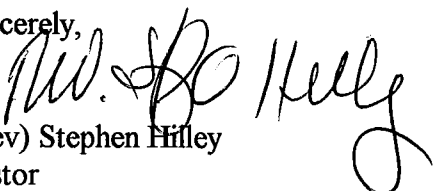

Dear Jeff:

This is a second time I've called upon you and your company to service an existing system in a parish setting. This one at St. Justin Martyr in Key Largo was, I'm sure, a bit more daunting what with the age of the bells and the height of the tower! However, the parishioners' trust was not misplaced! The bells returned entirely refurbished, the new speakers are in place, and whatever bugs needed to be worked out, North Key Largo is hearing the combination sound of the carillon and bronze bells again! As you know, it was on Easter Sunday 2015 when the sounds of the carillon reverberated over the grounds of the parish after being silenced for many years.

Besides the care Chime Master Systems takes, to do quality work, you also take time to help your customers to learn *how* to operate the systems. This is of immense value to a customer! Especially a returning one who remembers some things but, not all the improvements that make a company stay ahead of the competition.

Thanks again for all the help and professional work to give quality work to our bell system. The donors thank you as well and, it serves as a way to remember in *memorial* the original donors who aren't with us any more. Whenever, the sounds of the bell reverberate over the Key Largo and its surrounding waters, they will be remembered.

Sincerely,

  
(Rev) Stephen Hilley  
Pastor
