Selections Catalog

This catalog is provided as a supplement to the Chime Master System Millennium manual. It contains lists of frequently used bell ringing functions as well as specific music selection numbers. Should you need additional instruction, please refer to the *Overview* and *Scheduling Automatic Performances* sections of the operating manual.

Typically you will only need to enter selection numbers when editing your program schedule, programming function buttons or using the **Play Selections** menu for special occasions. We highly recommend using random music groups for your weekly program schedule. This both saves you time and the community will always have a great variety of music to enjoy.

Entering Selections

New selections may be entered over the existing program selections. Entering all zeros for a selection will delete it. In the **Setup Function Button** menu, and the **Play Selections** menu, if only one selection is entered, **001 Time(s)** will be displayed allowing you to repeat the selection up to 199 times. These repeats are usually used to program the number of strikes of a toll.

On Screen Title Lookup

Whenever a four digit number is flashing on the editing display, and you don't remember the number for your favorite selection, press the **[NO]** cursor down button (as in "**NO**, I don't know what number I want"). This will bring up the Title Lookup Screen which is subdivided into four groups:

User Recordings (if Librarian Option)	Titles of recordings that have been recorded by you. Any untitled selections will be displayed as <i>untitled nnnn</i> with its catalog number. Selection 8000 is the temporary recording buffer (available on all systems). The Recording Librarian option allows up to 2000 selections to be saved to permanent memory.
Carillon Library	Titles of factory pre-recorded arrangements for a full range carillon (one voice). The selection numbers for these selections are 4125 - 5999.
Chime Library	Titles of factory pre-recorded arrangements for two-part chime and harp bells. The selection numbers for these selections are 1125 - 2999.
Bell Ringing/Special	Titles of special use bells, ringing and timed blocks of random selections.

All of the music in this catalog can be played by entering the selection number on your system. Your system has been loaded with a title lookup and denominational filter that will allow appropriate music to play at your location. The optional *Millennium Suite* software allows you to select your own random play list for further customization.

Millennium Random Selections

Random music is categorized into groups for your scheduling convenience. By entering a hymn by group rather than a specific title, the carillon will automatically select appropriate music during all seasons.

Whenever a four digit number is flashing in the **Play Selections**, **Setup Function Button** or **View/Edit Schedule** screens, you may enter any of the groups below by pressing **[cursor▲]** followed by the group number.

Grp1	Sacred hymns mixed with non-sacred music, follows the almanac seasons
Grp2	Sacred hymns mixed with non-sacred music, always non-seasonal
*Grp3	Sacred hymns only, follows the almanac seasons
Grp4	Sacred hymns only, always non-seasonal
Grp5	Non-sacred music only, will play patriotic and Christmas in season
Grp6	Non-sacred music only, always non-seasonal
Grp7	Patriotic music independent of season
Grp8	Marian hymns independent of season
Grp9	User selected random music – <i>requires Millennium Suite for set up.</i>

Timed Blocks of random music take the groups listed above and play them for a block of time. Whenever a four digit number is flashing in the **View/Edit Schedule** screen, enter **[7]**, **[0]**, then the digit from the x column in the table (to select length of the block), followed by the digit from the y column of the table (to select the music group). **7023** will play random sacred hymns for fifteen minutes.

70xy Random Music Blocks

x (Length of Block)	y (Music Group)
0 Plays four selections	0 Sacred hymns alternated with non-sacred music, always non-seasonal
1 Plays until 5 min before next quarter hour (up to 10 minutes)	1 Sacred hymns mixed with non-sacred music, follows the almanac seasons
2* Plays until end of current quarter hour (up to 15 minutes)	2 Sacred hymns mixed with non-sacred music, always non-seasonal
3 Plays through current and next quarter hour (up to 30 minutes)	3* Sacred hymns only, follows the almanac seasons
	4 Sacred hymns only, always non-seasonal
	5 Non-sacred music only, will play patriotic and Christmas in season
	6 Non-sacred music only, always non-seasonal
	7 Patriotic music independent of season
	8 Marian hymns independent of season
	9 User selected random music

Millennium Bell Ringing Functions

The tables below contain four digit selection numbers for a variety of useful bell ringing functions. These rings play electronic samples of bell through the speakers. To play actual tower bells with the Tower Bell Commander, see **Addendum: Millennium Tower Bell Option** for the selection numbers. Enter the four digit number whenever four digits are flashing in the **Play Selections**, **Setup Function Button** or **View/Edit Schedule** screens. Asterisks mark the most popular selections.

Swinging Bells are available singly in four pitches. 4700 lb. Is the largest (lowest pitch) to 580 lb. (highest pitch). Lower pitches are used for Call to Worship bells, while smaller bells may be used to call classes and Sunday School. The intermediate 2300 lb. bell may be used if the 4700 lb. is out of proportion to your tower size.

580 lb 'hi C'	1051	1052	1053	1054	1055	1056	1057	1058	1059

A **Peal** consists of three or four swinging bells ringing together in a chord. Peals are used during celebrations such as Easter, Christmas Eve and weddings. Four traditional peals are included:

American three and four bell peals ring C-E-G and C-E-G-C (large bell is 4700 lb.)

European three bell peals ring E-G-A (largest bell is 2300 lb.)

Diatonic three bell peals ring D#-F-G (largest bell is 2750 lb.)

Maximus 6 six bell peals ring C-Eb-F-G-Bb-C (Pentatonic Peal - largest bell is 4700 lb.)

Tolls are solemn rings of a single bell. These are used for funerals and other solemn occasions. Two pitches are available, the large bell rings 'C' and the intermediate bell rings 'E'. Three rates are available. Slow rings once every 12 seconds, Medium rings once every 9 seconds and Fast rings once every 5 seconds. The automatic schedule can be programmed to let the bell toll continuously from 15 seconds to 10 minutes. In addition to timed tolls, the Play Selections menu and the Function Buttons can be used to program a certain number of strikes. To do this, select the number from the 'Single' strike column and set the repeat value from '1' to '199 time(s)'. Setting the STOP/NONSTOP field to stop will allow the bell to ring every time the button **[PLAY]** is pressed on the remote control.

Angelus bells call the community to prayer at morning, noon and evening times. Three different tempos are available to allow the appropriate amount of time between rings for each prayer. A choice of two bells as well as either a toll or a one-minute swinging bell to end the prayer is available. The 3-3-3 only is provided so you can program a swing or tolling bell of any length from the previous page to follow the prayer bell.
