P.O. Box 936

Lancaster, OH 43130

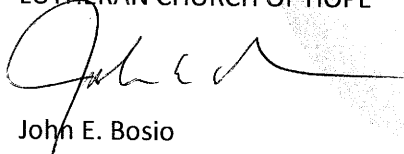

To Whom It May Concern:

This is to inform you of the wonderful job that Jeff Crook and Chime Master did for us when we built a new bell tower. We had 3 used bells donated to our church and they did a very good job of fitting them with new yokes, clappers and a toll hammer along with electronic controls to allow them to ring again in our new 80 foot tall spire.

As part of their service, they explained very thoroughly what our options for restoring them were, how to prepare the bells for shipment and gave us complete installation instructions for our crews. They sent a service technician to help install the bells, adjust all of the motors and set up our electronic controls. All of this service was provided at a very competitive price. While this may have been a small job for their company, Jeff made us feel like we were one of their most important customers.

I would highly recommend them to anyone in need of their services. I am sure you will be as pleased with them as we were.

LUTHERAN CHURCH OF HOPE
